	Box & Dropbox protection		✓	✓
Cross-Layer Detection and Response (XDR)	Correlates data automatically across email and endpoint in one console			✓
	Automated detection, sweeping, hunting, and root cause analysis			✓
	Advanced threat detection through cloud sandboxing			✓

Details on Worry-Free Services Suite

1. TrendMicro™ Worry-Free™ Services

Advanced protection

- High fidelity machine learning uniquely analyzes files, not only before execution but also during runtime.
- More reliable detection of advanced malware, including fileless, cryptocurrency mining, ransomware, and more.
- Behavioral analysis against scripts, injection, ransomware, memory, and browser attacks.
- Vulnerability protection automatically shields endpoints from known vulnerabilities of Microsoft applications, significantly limits the threat vulnerabilities that can be exploited.

Safeguards you sensitive data

- Integrated DLP, encryption management, and device control capabilities cover the broadest range of devices, applications, and file types to ensure:
- Maximum visibility and control.
- Confidentiality and compliance with GDPR, HIPPA, and other rapidly evolving regulations
- Granular policies for device control and data management
- Management and visibility for Microsoft® BitLocker®.

TrendMicro™ Worry-Free™ Services (Endpoint & Web)

Stop malicious software with application control

- Utilizes application monitoring, whitelisting, and lockdown.
- Blocks unauthorized or unknown applications from executing attacks, like ransomware.
- Enforces easy-to-manage, simple rules.
- Enables you to run only applications you have authorized.

2. TrendMicro™ Worry-Free™ Services Advanced

Cloud-based protection for your business devices and email

TrendMicro™ Email Security

Provides comprehensive protection for phishing, ransomwares, and fraud attacks

TrendMicro™ Cloud App Security

Layered protection for Microsoft O365™, G-Suite™, Box™ and Dropbox™ Cloud Apps

TrendMicro™ Worry-Free™ Services (Endpoint Protection)

Device and web protection (iOS/Android/PC/MAC)
Basic Cyber-Hygiene

Provides the same advanced protection, data defense, and application control capabilities as Worry-Free Services, plus:

- Complete email and collaboration protection
- Trend Micro Email Security™, a cloud-based email gateway, to protect your on-premises email
- Trend Micro™ Cloud App Security, an API-based protection to protect your Microsoft 365® email and Google G Suite™ Gmail™
- Advanced threat and data protection for Microsoft 365, G Suite, and collaboration tools such as Dropbox™, and Box™

Proven email and Microsoft 365 protection uncovers ransomware, business email compromise (BEC), credential phishing, and advanced targeted attacks

2.1. TrendMicro™ Cloud App Security

Cloud App Security

- Protects Office 365 email and Gmail, along with other cloud file-sharing and collaboration services
- Detects ransomware and other malware hidden in Office file formats or PDF documents
- Identifies BEC attacks using artificial intelligence
- Protects internal email and allows ondemand scanning for mail store
- Gives visibility into sensitive data use with cloud file-sharing services
- Preserves all user functionality, on any device, with simple API integration

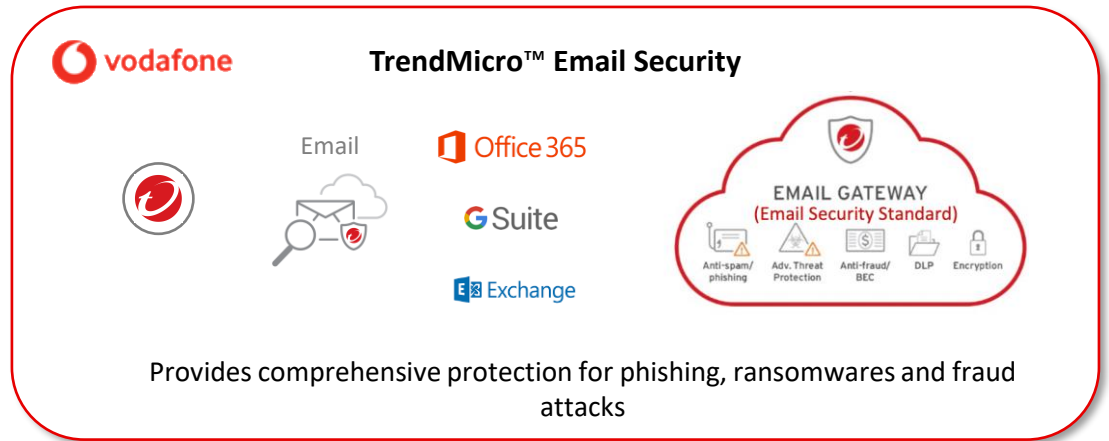

2.2. TrendMicro™ Email Security

Cloud Email gateway to stop more attacks

Email Security

- Cloud-based email gateway
- Detects and blocks advanced threats
- Data loss protection and email encryption
- Cross-generational threat defense techniques
- Supports on-site mail servers and hosted emails
- Filters both Inbound and Outbound email
- Blocks ransomware, phishing, targeted attacks, spam, malware and more
- Includes Cloud Sandbox and Email Encryption

Trend Micro™ Email Security stops more phishing, ransomware, and BEC attacks. Powered by XGen™, this security uses an optimum blend of cross-generational threat techniques, like machine learning, sandbox analysis, data loss prevention (DLP), and other methods to stop all types of email threats. Trend Micro Email Security protects Microsoft® Exchange™, Microsoft® Office 365®, Gmail™, and other hosted and on-premises email solutions.

3. TrendMicro™ Worry-Free™ XDR

Trend Micro Worry-Free XDR provides detection and response capabilities across email and endpoints to help you discover and respond to targeted attacks more effectively. By correlating threat data from endpoints and email, a clearer picture is available to determine the source and spread of advanced attacks.

Addressing Busy IT's Needs

Allows overloaded IT admin to mitigate issues quickly without manual investigation

Beyond the Endpoint

Investigation leads to faster & more effective response

Complete Visibility

Cross-product detection, response, and investigation capabilities within a single console

Worry-Free™ XDR

Combines Worry-Free Services Advanced and Trend Micro™ Endpoint Sensor to provide automatic detection and response across email and endpoint, giving you:

- Automatic data correlation from sensors that collect detection and activity data across endpoint and email—the #1 threat vector
- Automated sweeping and root cause analysis, including step-by-step recommended actions, allowing IT admin to mitigate issues quickly
- One console (Worry-Free Services) with native integration to endpoint and email
- Advanced threat detection through cloud sandboxing
