

Trend Micro™

WORRY-FREE™ SERVICES SUITES

Simple and complete protection for your endpoints and beyond

As advanced threats are designed to bypass traditional cybersecurity defenses, the rise of endpoint detection and response (EDR) has proven to be an important tool in the quest to seek out and eliminate advanced threats before they compromise data. But, while EDR is a good first step, it only focuses on endpoints.

Trend Micro™ Worry-Free™ Services is a suite of security solutions designed to match the needs of your organization, using a blend of advanced threat protection techniques to eliminate security gaps across any user activity throughout the endpoint and beyond.

SIMPLE, COMPLETE, TRUSTED

Powered by XGen™ security, Worry-Free Services provides a cross-generational blend of threat defense techniques and connected threat defenses that constantly learns, adapts, and automatically shares intelligence across your environment, giving you detection and response that is:

Simple

- Easy to install and won't slow you down.
- A single, intuitive web console for in-depth visibility and control across your entire organization.
- Manages multiple devices within a single agent.

Complete

- High-fidelity machine learning combined with other state-of-the-art detection techniques gives you the broadest protection against ransomware and advanced attacks.
- Uses a blend of advanced threat protection techniques to eliminate security gaps across any user activity, endpoint, and mailbox.

Trusted

- Protects more than 250 million endpoints thanks to our up-to-the-second threat intelligence network.
- Wards off threats while you focus on your business.

Trend Micro protects more than 250 million endpoints globally

Trend Micro™ Worry-Free™ Services

Cloud-based protection for endpoint and mobile devices.

Trend Micro™ Worry-Free™ Services Advanced

Cloud-based protection for your business devices and email.

Trend Micro™ Worry-Free™ XDR

Detection and response across email and endpoints.

WORRY-FREE SERVICES SOLUTIONS

FEATURES	Worry-Free Services	Worry-Free Services Advanced	Worry-Free XDR
Endpoint Security			
Windows and macOS support	✓	✓	✓
Anti-malware and behavior analysis	✓	✓	✓
Predictive and runtime machine learning	✓	✓	✓
Vulnerability protection/virtual patching	✓	✓	✓
Full disk encryption*	✓	✓	✓
Application control	✓	✓	✓
Integrated endpoint DLP	✓	✓	✓
Device control	✓	✓	✓
Web Security			
Web reputation and URL filtering	✓	✓	✓
Mobile Security and Management			
iOS and Android support	✓	✓	✓
Email and collaboration security			
Cloud email gateway with DLP		✓	✓
API-based Microsoft 365/G Suite protection		✓	✓
Cloud sandboxing		✓ **	✓ ***
BEC and credential phishing protection		✓	✓
File Password Extraction			✓
Log Search Window		30 days	60 days
Message Size Limit		50 MB	150 MB
Email Continuity			✓
Box & Dropbox protection		✓	✓
Extended Detection and Response (XDR)			
Correlates data automatically across email and endpoint in one console			✓
Automated detection, sweeping, hunting, and root cause analysis			✓
Advanced threat detection through cloud sandboxing			✓

*Requires Windows Bitlocker agent installed. ** Cloud App Security Sandboxing only. *** Endpoint, Email and Cloud App Security Sandboxing.

WORRY-FREE OPTIONS

Worry-Free Services

Most small to medium-sized businesses (SMBs) lack a dedicated security team and skillset, which leads to overworked IT teams. Worry-Free Services helps lessen the workload by providing an all-in-one lightweight agent with an intuitive cloud-based console that gives you in-depth visibility and control across your entire organization.

BENEFITS

Advanced protection

- High fidelity machine learning uniquely analyzes files, not only before execution, but also during runtime.
- More reliable detection of advanced malware, including fileless, cryptocurrency mining, ransomware, and more.
- Behavioral analysis against scripts, injection, ransomware, memory, and browser attacks.
- Vulnerability protection automatically shields endpoints from known vulnerabilities of Microsoft® applications, significantly limiting the threat vulnerabilities that can be exploited.

Safeguards your sensitive data

- Integrated data loss protection (DLP), encryption management, and device control capabilities cover the broadest range of devices, applications, and file types to ensure:
 - Maximum visibility and control.
 - Confidentiality and compliance with General Data Protection Regulation (GDPR), Health Insurance and Portability Assurance Act (HIPAA), and other rapidly evolving regulations.
 - Granular policies for device control and data management.
 - Management and visibility for Microsoft BitLocker.

Stops malicious software with application control

- Utilizes application monitoring, safelisting, and lockdown.
- Blocks unauthorized or unknown applications, like ransomware, from executing attacks.
- Enforces easy-to-manage, simple rules.
- Enables you to run only authorized applications.

Trend Micro™ Worry-Free™ Advanced

Email has quickly become the #1 entry point for malware. According to Verizon's 2020 Data Breach Investigation Report, 96% of social engineering attacks were delivered via email. Worry-Free Advanced provides cloud-based protection for your business devices from spear phishing and advanced targeted attacks, and stops email threats in the cloud before they reach your network.

Cloud App Security blocked 16.7 million high-risk email threats in 2020—in addition to those detected by Microsoft Office 365 and Gmail built-in security.

BENEFITS

- Provides the same advanced protection, data defense, and application control capabilities as Worry-Free Services, plus:
 - Complete email and collaboration protection.
 - Trend Micro™ Email Security Standard, a cloud-based email gateway, to protect your on-premises email.
 - Trend Micro™ Cloud App Security, an API-based protection to protect your Microsoft Office 365 and Gmail™ email service.
 - Advanced threat and data protection for Microsoft Office 365, Google Workspace™, and collaboration tools such as Dropbox™ and Box™.
- Proven email protection uncovers ransomware, business email compromise (BEC), credential phishing, and advanced targeted attacks.

Trend Micro™ Worry-Free™ XDR

Even organizations with the most advanced protection layers aren't immune to cyber threats, as there's no such thing as 100% prevention. Since there are very serious risks and costs associated with undetected or slow to detect threats in the organization, the goal is to quickly detect and respond to threats before significant damage is done.

Worry-Free XDR provides detection and response capabilities to help you discover and respond to targeted attacks more effectively by correlating threat data from endpoints and email. This provides a clearer picture to determine the source and spread of advanced attacks.

BENEFITS

- Combines Worry-Free Services Advanced, Trend Micro™ Email Security Advanced, and Trend Micro™ Endpoint Sensor to provide automatic detection and response across email and endpoint, giving you:
 - Automatic data correlation from sensors that collect detection and activity data across endpoint and email—the #1 threat vector.
 - Automated sweeping and root-cause analysis, including step-by-step recommendations that allow IT admin to quickly mitigate issues.
 - One console (Worry-Free Services) with native integration to endpoint and email.
 - Advanced threat detection through cloud sandboxing.
- Most advanced threats start with a phishing email, so combining advanced email protection with the ability to trace a threat to its entry point is an effective defense against the latest in email attacks.
- Includes email continuity, allowing users to send and receive email during an email service outage
- Allows managed service providers (MSPs) to manage cross-customer detection, investigation, and response. This unique feature from Trend Micro Remote Manager™ enables MSPs to receive alerts, sweep indicators of compromise (IoCs), endpoint, and email, as well as take mitigation actions across their customer base all from one single pane of glass, instead of wasting time checking each customer's product console.

WHY CHOOSE TREND MICRO FOR YOUR SECURITY PARTNER?

- Over 30 years of security expertise for business and consumers
- Trend Micro™ Worry-Free™ Business Security Services that protects over 500,000 businesses worldwide
- Solutions that are powered by Trend Micro™ Smart Protection Network™, a cloud-based global threat intelligence infrastructure supported by over 1,200 threat experts worldwide
