Click on “Open console” and you will single sign on directly into the product console where you can configure your products. Where you have a bundle with multiple products, like Worry-Free Services Advanced or Worry-Free XDR, it is advised to log into the Worry-Free Services console first. It will look like the screen below.

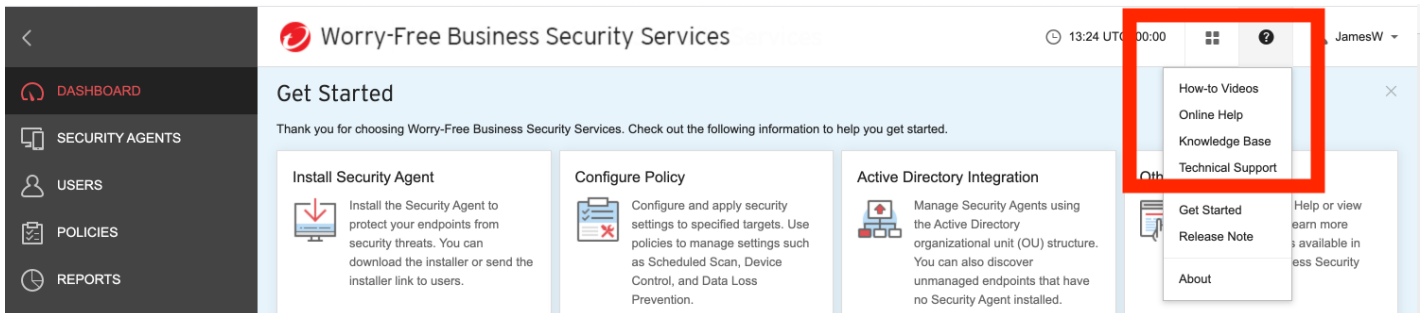

Please follow the quick start instructions within the console or via this link:

<https://wfbss-svc-emea.trendmicro.com/wfbss-static/getting-started?lang=en>

At the top right of the Worry-Free Services screen you will find a question mark. Please click it to expand further sections such as How-to videos, online help, knowledge base and support details.

The How-to-Videos are short videos that take you through different elements of the product configuration.
